*"As a member of Citizens Against The Buck Center, there are a number of reasons why I feel the proposed facility should be stopped. The concomitant loss of hundreds of acres of agricultural land, water consumption, hazardous toxic conditions, the questionable legal manipulation of Beryl Buck's Will, and the moral and scientific issues surrounding biomedical research represent a negative impact on Marin County. The Buck Center is a microcosm of the profit / glory thrust that ignores the human, land, animal and environmental needs facing not only Marin, but the world as a whole. Let your voice be heard. Help us stop the greed."*

## Dave Archer

"I'm very happy about this event. Showing with George Sumner and Jacquie Vaux is a reunion for me with two wonderful artists I have known for years. George and I go back to "the road" when we traveled the Western States doing festivals and Jacquie and I showed together for years in galleries. The pleasure of that reunion combined with Grace Slick volunteering to sing makes this show very special!

I had a benefit about 6 months ago, and people lined up to get in. Don't miss this one. Doors open exactly at 2:00 pm and all for a great cause.

Come on by and I'll show you how I paint with a million volts of electricity!"

## George Sumner

George Sumner, Environmental Artist-Activist, has done commissions for the Statue of Liberty and the Golden Gate Bridge. George was recently honored with giving Mikhail Gorbachev, the President of the Soviet Union, for the people of the Soviet Union, the oil painting entitled, "The Peacemakers". A new painting entitled "Desert Shield" will be presented to President Bush, as a token of compassion and support, for the service men and women that have been stationed in the Middle East. The concerns of the planet and the environment have been an ongoing crusade for George for over 30 years, please join him and fellow artists for the benefit of The Marin Humane Society, Sunday, April 28th.

## Jacquie Marie Vaux
